

KBH was built in 1933 on a beautiful 35-acre tract of land with funds left by a Chicago native, Suzanne King-Bruwaert, for the purpose of providing shelter for “women in their later years of life” who could no longer be independent. In 1979, KBH added another dimension when it acquired Godair Park, a small nearby community of thirty-one independent living units. In the same year, men were invited to apply for admission. In 1995, fifty-eight cottages south of KBH were constructed. This distinctive community for independent living is called the Woods of King-Bruwaert.

KBH is a non-profit, non-denominational continuing care retirement community, providing various living arrangements and care to over 250 residents in KBH, the Woods of King-Bruwaert and Godair Park. KBH also coordinates with a Geriatric Assessment Center and outpatient clinic for the benefit of the community-at-large.

Our primary purpose is to provide quality care and service for those who have been entrusted to our care.
